

Fig No. MD-22J- PN16

1-1/2" - 8" (DN40- DN200)

Feature :

- Investment Casting Component
- ISO 5211 mounting flange
- Blow-out-proof stem, Anti-Static Design
- For General Chemical and Industrial application
- Cast Bosses For Bleed / Drain Port.

Standard Compliance:

- Design : B16.34
- Face to face : MFG Standard
- Flange dimension : DIN 1092-1 PN 16 RF
- Body Material : 1.4408
- Pressure testing : EN 12266-1/ API 598

Specifications :

- End connection : Flange RF
- Working pressure : 14.6 bar (CWP)
- Temperature : -20 ~220°C
